

Office of the Chairman

Surface Transportation Board
Washington, D.C. 20423-0001

November 1, 2016

Chairman Mario Diaz-Balart
Committee on Appropriations
Subcommittee on Transportation, Housing
and Urban Development
U.S. House of Representatives
2358-A Rayburn House Office Building
Washington, DC 20515

The Honorable David Price
Ranking Member
Committee on Appropriations
Subcommittee on Transportation, Housing
and Urban Development
U.S. House of Representatives
1015 Longworth House Office Building
Washington, DC 20515

Dear Representatives Diaz-Balart and Price,

I am writing to provide information pertaining to the *Surface Transportation Board Reauthorization Act of 2015*, Public Law 114-110 (“Reauthorization Act” or “Act”). With this letter, please find a status chart of the major actions that the Board is undertaking to execute these requirements. I will continue to send you monthly updates until all relevant provisions of the Reauthorization Act are completed.

Arbitration. In late September, the Board issued final rules in Revisions to Arbitration Procedures, Docket No. EP 730, which modified our arbitration procedures to conform to the requirements set forth in the Act. Those final rules became effective on October 30, 2016.

Rate Cases. As you are aware, the Board delivered to Congress, and made publicly available, the rate case methodology report conducted by InterVISTAS Consulting LLC as an initial step toward complying with Section 15 of the Act. Back in late 2014, we commissioned InterVISTAS to, among other things, look for alternative methodologies to the stand-alone cost (SAC) test that exist or could be developed and that could be used to reduce the time, complexity, and expense historically involved in rate cases; determine whether SAC is sufficient for large rate cases; and determine whether our simplified methodologies were appropriate alternatives to SAC. To kick off the release of this very important report, the Board held an economic roundtable on October 25, 2016. At the roundtable, InterVISTAS presented its conclusions and findings, and other independent economists as well as the Board’s economists, engaged in a lively discussion regarding SAC. The Board will submit a report further discussing the issues raised in Section 15 of the Reauthorization Act. I plan to schedule a Board hearing soon so that there is opportunity for public comment and reaction to the InterVISTAS report and the issues raised at the economic roundtable.

I am looking forward to the comments in Expanding Access to Rate Relief, EP 665 (Sub-No. 2). Opening comments are due this month, and reply comments are due by December 19, 2016. In the advance notice of proposed rulemaking, the Board introduced a proposal for small, streamlined rate reasonableness cases, intended for small shippers.

Furthermore, the Board has steadily been working on improving our internal rate case processing procedures. My goal in convening a study team was to ensure the delivery of high-quality and timely decisions in large rate cases. Last month, I released a report analyzing our agency's internal procedures which includes near-term and longer-term recommendations. We are working to complete a set of SAC processing guidelines that our rate case staff teams can utilize that implement many of the report's recommendations.

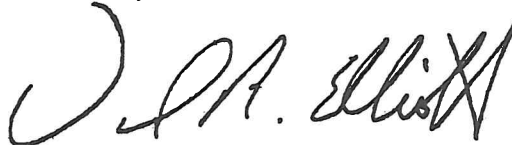

With respect to rate cases themselves, on October 24, 2016, CSX Transportation, Inc. filed a petition for reconsideration in Total Petrochemicals & Refining USA Inc. v. CSX Transportation, Inc., NOR 42121, one of the two stand-alone cost rate reasonableness cases that are before the Board this quarter.

Regulatory Proceedings. Opening comments in Reciprocal Switching, EP 711 (Sub-No. 1), have been filed, and reply comments are due by January 13, 2017. The Board Members will be holding ex parte meetings between January 30, 2017, and February 17, 2017.

On October 31, 2016, the Board issued a decision in Petition of Western Coal Traffic League to Institute a Rulemaking Proceeding to Abolish the Use of the Multi-Stage Discontinued Cash Flow Model in Determining the Railroad Industry's Cost of Capital, EP 664 (Sub-No. 2). In that decision, the Board declined to issue a notice of proposed rulemaking to abolish the use of the multi-stage discounted cash flow model in determining the railroad industry's cost of equity capital. This decision follows a public hearing and the consideration of the comments and evidence submitted in the record.

Thank you for your thoughtful oversight and ongoing interest in the Board. Please do not hesitate to contact me with any questions about this letter or any other matter before the Board.

Sincerely,

A handwritten signature in black ink, appearing to read "D. R. Elliott III". The signature is fluid and cursive, with a large initial "D" and "E".

Daniel R. Elliott III
Chairman

**STB Reauthorization Act of 2015, P.L. 114-110 / STB Action Items
October 2016**

Section of Law - Action Required	Description	Deadline	Status
Sec. 6(a) - Annual Report	Report on each initiated investigation in Annual Report	Annually	To be included in FY2016 Annual Report and thereafter
Sec. 6(b) - Quarterly Rate Case Review Metrics Reports	Post quarterly reports of rate cases pending or completed during the previous quarter	Fourth Qtr 2016	Third quarterly report completed 10/3/2016; posted to website; next report underway
