Re: *STB Docket No. EP 724-3 - United States Rail Service Issues- Data Collection*
2017 Reporting Week Ten

Dear Ms Begeman, Mr. Elliott and Ms Miller:

I am writing to provide comment on the service data that we are filing contemporaneous herewith in response to the Board's data collection order of October 8, 2014.

CP's US network continues to be fluid and in good operating condition, as it has for many months. System average train speed, weekly average terminal dwell, and cars on line data are all good.

This reporting week we received 979 new grain car orders, and spotted a total of 2093 grain cars, which total includes single cars and cars in dedicated trains. The number of outstanding grain car orders this week is 3731.

Off-line issues in the Pacific Northwest corridor are stabilizing and as a result our grain car cycles are in the process of re-setting. We continue to work with other carriers and our customers to minimize the effects and improve cycle times.

Sincerely,

Steven Nettleton,
Vice President Operations
